

BAPTIST HEALTH DEACONESS

MADISONVILLE FOUNDATION

2023

ANNUAL REPORT

\$783K

Capital Distributions

Your donations allowed us to purchase crucial medical equipment, such as a LMobile X-ray, Ergo C-Arm, Trumpf Table, and more.

\$47K

Patient Assistance

Together, we helped to provide transportation, lodging, medical equipment, clothing, and prescriptions to patients in need.

\$36K

Education & Career Development

Funding helped to provide valuable training to staff, such as SANE Training, KY Emergency Nurse Education, and more.

\$22K

Nursing Scholarships

Scholarships were distributed to 10 students in the Nursing Program at MCC. Those students will work at BHDM following graduation.

ION ROBOT

The ION Robot utilizes cutting edge technology that allows a biopsy to be completed earlier than previously possible in a less-invasive manner. In the past year, this has been used to check over 100 patients, enabling doctors to catch cancer in its early stages and take measures to prevent further growth and spread.

SANE TRAINING

A team of nurses from our Emergency Department attended classroom and clinical training in collaboration with the University of Louisville Sexual Assault Nurse Examiner (SANE) program. These nurses were trained on the collection of evidence, forensic interviews, and documentation, as well as how to testify in legal proceedings.

ANNE SMALDONE RN SCHOLARSHIP

Each year, scholarships are awarded to local nursing students to help pay for tuition. Two scholarship recipients, Brockton and Alexis Manning, share more than their last name. This couple's passion for nursing has pushed them to pursue higher education as they look to advance in their careers at Baptist Health Deaconess Madisonville.

VOLUNTEERS

Our generous volunteers logged over 3500 hours of service, providing assistance with a smile to our patients at various locations throughout the hospital. These volunteers help with a number of programs, including Chemo Buddies and crafting pillows for our cardiac patients.

CAMDEN & THE MILLER FAMILY

"Camden has a rare genetic disorder (ZC4H2, now known as ZARD). At the time he was born, he was the only child in the USA that was diagnosed with the defect, and he was one of only 67 in the world. Camden was ordered pediatric PT, ST, and OT and we were fortunate enough to have it right here in our own back door.

This facility didn't just have a child as a patient, it helped raise and teach a child his first 'everything' at this facility. We have seen time and time again, this Foundation changing the lives of every kid that has come through these doors and making a difference that will last them a lifetime."

A MESSAGE FROM THE DIRECTOR

ASHLEY GALVAN
Director of Philanthropy

One of the most enjoyable and fulfilling aspects of my role with Baptist Health Deaconess Madisonville Foundation is the opportunity to share the incredible impact the Foundation has had on our community.

Throughout the last year, we have seen countless examples of how our generous and supportive donors are making a difference in the lives of those we serve. Whether it be funding surgical robots that will help to save lives or providing patients with transportation to and from chemo appointments, the examples highlighted in this report only provide a snapshot of the many ways our collective efforts have created lasting positive change.

Through challenges and adversity, we never wavered from our mission: to deliver quality healthcare with a compassionate and nurturing spirit to all. The 'compassionate' aspect of this mission has been on full display. Our community has demonstrated compassion with their willingness to answer the call to make a positive imprint on the lives of many through generous donations and partnerships. Our staff has stayed true to compassionate care because they know they are caring for someone's mother, father, son, or daughter. Our physicians and clinicians are our neighbors, friends, and our caregivers. Compassion is a beacon of hope that brings us all together.

This year, thanks to the generosity of our incredible donors and their passion for helping others, the Foundation: purchased equipment for our NICU to serve our tiniest patients; provided transportation that enabled those in need to have access to healthcare; supported our employees as they overcame obstacles; celebrated the critical care garden; funded educational opportunities for employees; provided scholarships for local nursing students who will join our Baptist Health Deaconess family following graduation; and enhanced the overall health and well-being of our community.

As a not-for-profit hospital, we have been blessed to partner with businesses, civic organizations, and individuals who passionately supported the hospital so that we may continue our legacy. As we look ahead to the coming year, we remain committed to building on our success and continuing to make a meaningful impact. Together, we can achieve even greater things and further strengthen our community. I am blessed and thankful to have a front row seat as we change lives and positively impact our community.

Yours in Service,
Ashley Galvan
